

THE BEST OF IRELAND WITH *ireland us experience*

THE BEST OF IRELAND WITH *ireland us experience*

There are lots of reasons why people want to visit Ireland. For some it is an opportunity to see places they have heard about since their childhood, for others it is a chance to catch up on some family history, for some it is the scenery or the chance to play some fantastic golf, and others just want to immerse themselves in a place that is full of history and legend.

No two visitors will have the exact same mix of reasons for visiting us, so we have put together a listing of the major places of interest in every major city and county in Ireland to allow you to easily pick and choose those that particularly appeal to you.

These cover ancient monuments, historical sites, major scenic locations, interesting buildings and things to do.

This is by no means a comprehensive list of everything there is to see and do. Around every corner of Ireland you will find examples of ancient ruined churches and stately homes that are open to the public. You will find exhibitions and museums in almost every town in the country, marking local events and heroes. You will find stunning vistas from almost every hill top. You will come across exquisite churches of every denomination, historic sites and fun events and places just by travelling off the beaten track and occasionally leaving the motorways.

You will find that many attractions will feature restaurants or tea-rooms either onsite or very close to them where you can relax after your exertions of the day over a nice cup of coffee or tea. And it goes without saying, that nowhere in the country are you far from a pub, many of which offer fantastic meals at reasonable prices.

What we have tried to do is select the best of the best and present them to you as a sample of what Ireland has to offer. We apologise to anyone who feels we have left out their personal favorites, and would be delighted to hear your opinions.

We have a separate page on our website that lists all the major festivals and events that are occurring this year and as most of them take place on an annual basis around the same time every year, even if you are not intending to visit us this year, check out the various weblinks to see when your favorites will be repeated in the future.

And then, should you decide to take the next step, and make that long promised visit to the Emerald Isle, we in Ireland US Experience would be delighted to put together a tour package that takes you exactly where you want to go.
